Falzmaschine

An der Falzmaschine erhielten
die vorgegebenen Blöcke eine
einheitliche Stärke. Diese Arbeit
geschah früher mit Falzböcken
in Handarbeit.

20. Jahrhundert, Österreich, Wien

Werkzeuge

A man in a dark suit and glasses stands in a museum, gesturing towards a large, complex mechanical device. He is addressing a group of people, some of whom are seated and looking at him. The background features a large wooden cabinet and a sign that reads "Andreas Wandlger".
